JOSHUA DE GUZMAN

Candaba, Pampanga • 0917-453-5412 • joshuadeguzman1600@gmail.com

2+ years of full-stack development experience, making robust and complex web-applications with PHP. Made various education institution's web applications with a team which is currently deployed. Led a team in creating web-applications. Was in the middle of development of a motorcycle taxi app before transitioning.

SKILLS

- High Proficiency with PHP programming language
- High Proficiency with HTML, JavaScript and CSS
- High Proficiency with the JQuery and Bootstrap libraries
- Intermediate proficiency with MySQL Database
- Intermediate proficiency with ReactJS / NextJS
- Low to intermediate proficiency with React Native and Expo
- Able to adapt and willing to learn

WORK EXPERIENCE

Full-stack developer • 2022 - 2024

Chonggos Digital and Virtual Assistant

- Made an educational institution's enrollment and accounting system which is currently being used. It was made with vanilla PHP with an MVC, used JQuery and Bootstrap library, and used MySQL as the database.
- Made a grading and scheduling system which is currently pending deployment for the same institution and with the same structure as the previous systems.
- Led a team of OJT students in developing an inventory system and a dental system using vanilla PHP only.
- Was in the middle of development of a motorcycle taxi app with React Native and Expo before I transitioned out.

EDUCATION

Bachelor of Science in Information Technology • 2018 - 2022

Baliwag Polytechnic College

ACHIEVEMENTS

- Graduated as Cumlaude at Baliwag Polytechnic College
